Products displaying this nationally recognized symbol are accessible to and usable by physically challenged persons and meet all the requirements of ICC/ANSI A117.1 and ADAAG for an operable part.

Showers have never been smarter. Or more enjoyable.

At Delta®, we continue to push ourselves to make the shower experience more extraordinary. Built with our most innovative and intuitive technologies, our showers are designed to perform—and feel—better than ever.

H₂Okinetic® Showers.

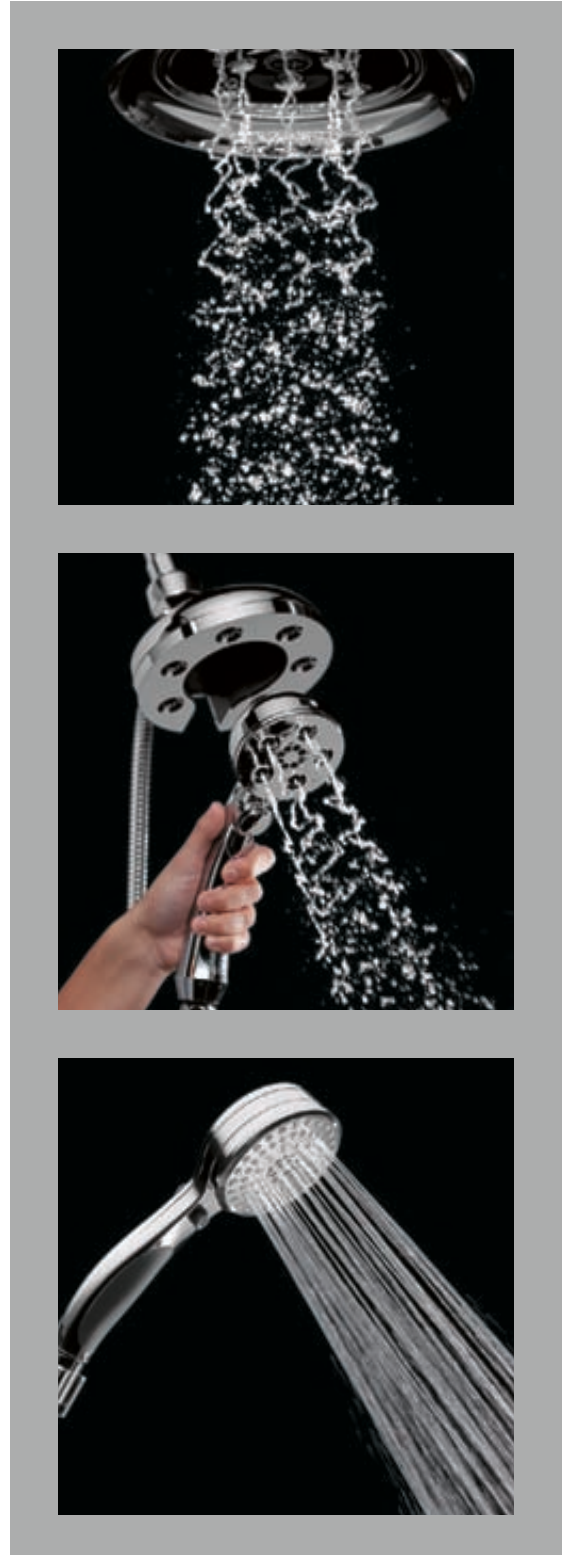

H₂Okinetic Showers utilize the natural energy of water unlike any shower has before. Large water droplets move in a unique wave pattern, creating a warmer shower experience with 3X the coverage of a standard shower.* It's the feeling of more water, without using more water. And it's a difference you'll notice every time you step into the shower.

In2ition®—Two-in-One Shower.

Wash the day away with a Delta In2ition Shower. In its primary position, it functions like a regular showerhead. When you need to rinse from a close range, simply remove the handshower. It's two showers in one beautifully convenient package, so that you can have water where you need it the most.

ActivTouch® Handshower.

Imagine nine spray settings in one incredible handshower. That's exactly what you get with ActivTouch. The ergonomic handle and buttons provide the ultimate in convenience and functionality. From a full-body spray to a concentrated massage spray (and everything in between), it adds a custom touch to any shower.

*Coverage measured in accordance with EPA WaterSense® Specification for Showerheads, March 4, 2010.

Palm® Handshower.

For control and versatility in the palm of your hand, look no further than the Delta® Palm Handshower. It offers simple, one-handed operation and slides easily into the palm of your hand with a rubberized grip to hug your hand securely. You are in control with a simple, one-handed click of the selection button.

3-Way Diverter with Handshower Mount.

One click of the lever lets you divert water to the showerhead. Another click redirects water from the fixed showerhead to the handshower. Or click again to have both at the same time for a drenching, full-body shower experience. The 3-way diverter from Delta is one truly enjoyable feature.

MagnaTite® Docking.

In2ition showers with MagnaTite snap right back into place on the showerhead. A powerful magnet guides the handshower into perfect position and holds it firmly in place while not in use.

Find your perfect pattern.

Few things are as personal as a shower. That's why we offer a variety of water spray patterns to suit different needs—so you can find the one that suits you perfectly.

WaterSense® labeled showerheads and handshowers.

As Delta® strives to achieve and increase water-efficiency across our lines, we take our role as a WaterSense partner very seriously. Delta showerheads and handshowers which meet WaterSense requirements use between 20–40% less water* than the industry standard and perform as well or better than their less efficient counterparts.

Pause functionality.

Many of our handshowers come equipped with a “Pause” feature—reducing the water to a trickle. So you can conserve water while doing tasks such as lathering up, shaving your legs, or bathing a child or a pet.

*Based on flow rate for showerheads and handshowers of 1.5 gpm or 2.0 gpm versus Industry Standard ASME A112.18.1/CSA B125.1 of 2.5 gpm.

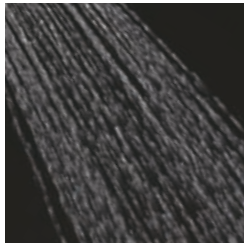

Showerhead and handshower sprays.

Touch-Clean®

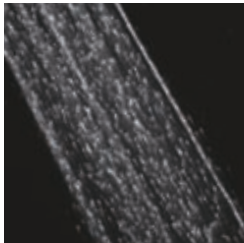

Only Delta showers are equipped with Touch-Clean soft, rubber spray holes that allow you to easily wipe away calcium and lime buildup with the touch of a finger.

Water Savings			
	2.5 GPM Showerhead	1.5 GPM Showerhead	
	Annual Use	Annual Use	Annual Savings
Water Usage	\$221.19	\$132.71	\$88.48
Gas Heating	\$304.69	\$182.81	\$121.88
Electric Heating	\$547.38	\$328.43	\$218.95
Total (Electric)	\$768.57	\$461.14	\$307.43

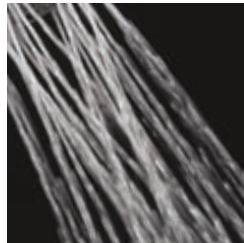

Based on a family of four. Average length of shower—10 minutes.
(Source: Energy Information Administration—Official Energy Statistics for the U.S. Government—2009)

Adjustable Full Body Spray (AF)
Adjust the water flow for a harder or softer spray.

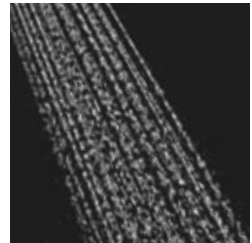

Adjustable H₂Okinetic® Spray (AH₂O)
Allows for full flow or water-efficient spray.

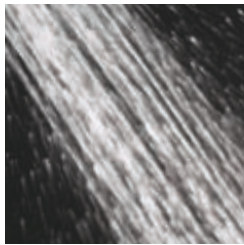

Crossing Full Spray (CF)
Consistent pressure from all spray holes with crossing streams for more coverage.

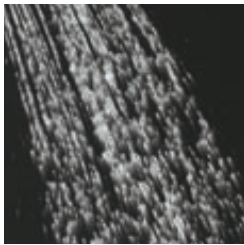

Crossing Full Spray with Massage (CFM)
Coverage of crossing full spray with addition of a soothing, pulsating spray.

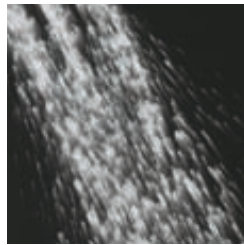

Full Body Spray (FB)
Consistent pressure from all spray holes.

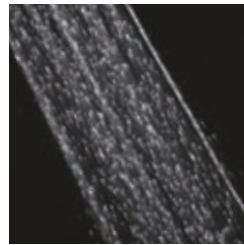

Fast Massage (FM)
Strong, pulsating spray.

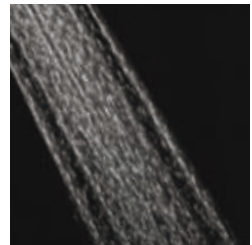

Full Spray with Massage (FSM)
Consistent pressure from outside spray holes, plus soothing, pulsating spray.

High-Efficiency Spray (HE)
Provides full coverage and feels like greater water pressure at lower flow rates.

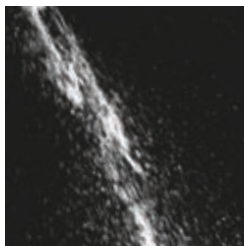

H₂Okinetic Spray (H₂O)
Large drops and dense, wide spray pattern create a blanket of water.

H₂Okinetic Spray with Massage (H₂OM)
Large drops and dense spray pattern plus a pulsating spray.

HANDSHOWERS

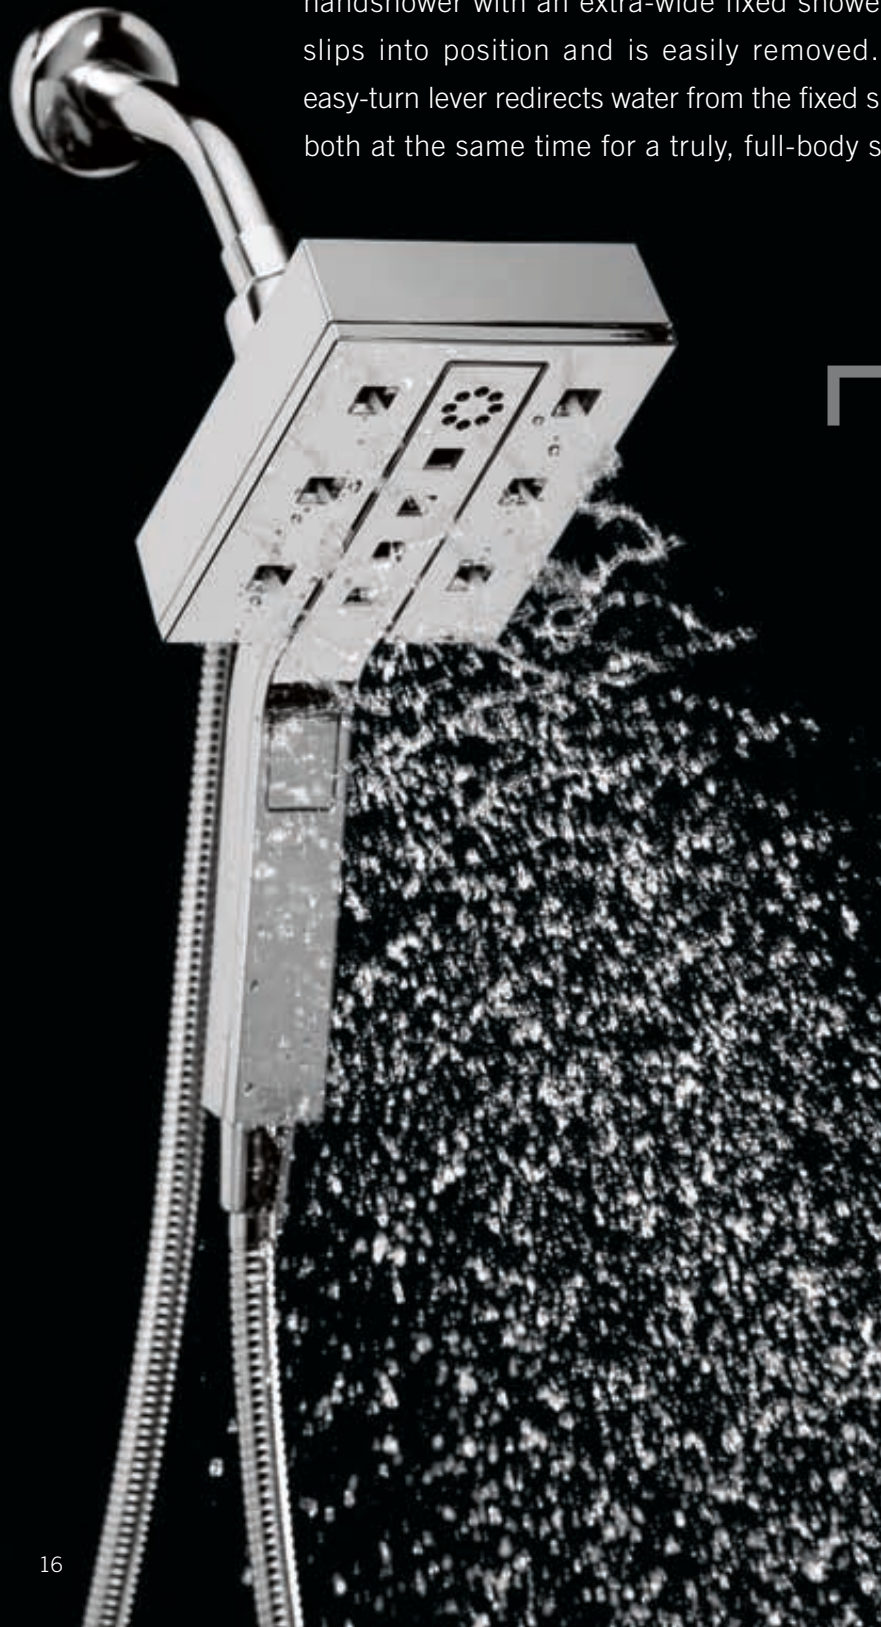

Putting you in control.

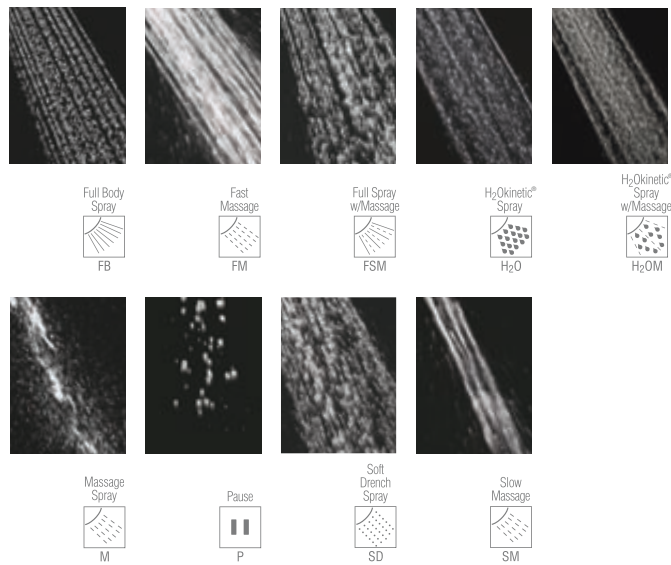

A handshower is the most versatile component of any shower. So it's only fitting that our selection be just as varied. Whether you're looking for tried-and-true functionality or the most innovative technology, we make it easy to find the right handshower to match any style or budget.

IN2ITION® SHOWER

The In2ition Two-in-One Shower combines a four- or five-spray massage handshower with an extra-wide fixed showerhead. The handshower simply slips into position and is easily removed. A three-way diverter with an easy-turn lever redirects water from the fixed showerhead to the handshower or both at the same time for a truly, full-body shower experience.

Spray Settings

All In2ition showers come without shower arm and flange.

Integrated H2Okinetic® Showerhead and Handshower
4-Setting Handshower
Fully Plated Showerhead

H₂OKINETIC® HANDSHOWERS

With H₂Okinetic Technology in a handshower, you can focus the unique wave pattern and soothing coverage wherever you need it. Large water droplets and a dense spray pattern result in a warmer shower experience.

ACTIVTOUCH®

The ActivTouch handshower's three spray-selection buttons let you choose up to eight spray options with the simple, one-handed push of a button. ActivTouch also features the popular "pause control" button, which reduces the spray to a trickle. WaterSense® labeled models provide you all the functionality with up to 20% water savings.*

SHOWERHEADS

The centerpiece of a
great shower experience.

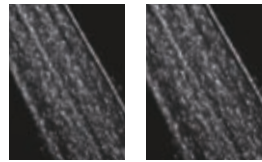

Whether you use it as a foundation on which to build or let it shine all on its own, a showerhead is one of the most defining elements of a shower. And from multi-setting options to drenching raincans, every Delta® showerhead is designed to add both beauty and innovation.

H₂OKINETIC® SHOWERHEADS

From classic to contemporary, H₂Okinetic Showerheads are available in a range of styles—all of which feature an experience you'll have to feel to believe. Thanks to a unique wave pattern that blankets the body with coverage, H₂Okinetic Showerheads create the feeling of more water without using more water.
